REASONS FOR ALLOWANCE

The following is an examiner's statement of reasons for allowance: The prior art fails to disclose or suggest an optical waveguide including a core having a cross-linked polymeric material obtained by UV radiation of a polyamide having repeating units of claimed formula. Nor does the prior art suggests or discloses a method for producing an optical waveguide including a spin-coated the claimed formula on a substrate layer to obtain a film of the polyamide of formula.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

The prior art documents submitted by Applicant(s) in the Information Disclosure Statement(s) filed on 02/15/07 and 12/07/04 have all been considered and made of record (note the attached copy of form(s) PTO-1449).

The cited art including Beuhler et al (WO 94/14874) and Chakravorty (US 5,609,797) disclose different UV curable cross-linked polymers for an optical waveguide but fail to disclose or suggest the claimed polyimide formula.

The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. Mune et al discloses a polyimide for an optical waveguide.

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Hemang Sanghavi whose telephone number is (571) 272-9955. The examiner can normally be reached on Mon-Fri.
